

May 12, 1974

Mr. Dee C. Hansen
State Engineer
Salt Lake City, Utah

Dear Sir:

The undersigned water users of waters in Boulder Creek and Deer Creek in the County of Garfield do hereby petition the State Engineer to appoint a water commissioner for this area to administer and distribute the water in this area. For the past two irrigation seasons the water has not been equitably and fairly distributed, handled by an authorized person, nor have the recommendations made by the State Engineer at the hearing made by the State Engineer in Boulder, Utah in the summer of 1972 been carried out.
